

Educator Development Committee

Mission

To support and promote the evidence informed professional development of the community of medical educators

Aim

The purpose of the group is to:

- 🔥 Promote and disseminate good educational practice for the benefit of patient care.
- 🔥 Encourage the scholarly development and career progression of educators.
- 🔥 Facilitate networking and collaboration across medical education communities.

Vision

The EDC aims to promote and support educator development and address educator learning needs through various means. These include the awarding of prizes, the delivery of workshops relevant to educators at all career stages including at the ASM and the organisation and hosting of regional meetings.

What we are planning

To further support experienced and new educators alike, we are developing new ways of sharing and recognising good educational practice. We are working with other groups to explore supporting educator development at all career stages - for example, we are developing new ways to support CTFs and early-career medical educators with TASME. If you have suggestions you would like EDC to consider, please contact us on edc@asme.org.uk

For more information, email edc@asme.org.uk or visit our website for a list of all membership benefits and details of how to join online.

Events/Activities

Regional medical education events, currently the Midlands Regional Conference and The Northwest Medical Education Forum.

EDC Awards

EDC Education Innovation Award

Supported by Wiley, the **ASME EDC** Education Innovation Award has been developed to highlight, promote and disseminate examples of innovative educational practice in medicine. The value of the award is £1,000 towards professional development expenses and one free registration at the Annual Scholarship Meeting (ASM) to present their paper at the **EDC** “Innovative, Interesting and Prize Winning Work” session.

EDC Educator Development Awards

The **EDC** Educator Development Awards are aimed at providing funding for an individual to further develop themselves as an educator. Options include (but are not limited to) allowing travel to visit a host institution to gain experience in a specific type of teaching, travel to events or conferences, attendance at relevant courses or undertaking a specific educational development in a home institution. The total value of available awards is £5,000 in any year to be divided at the discretion of the **EDC** to maximise the impact of the awards. There will normally be at least two awards made each year.

Please see our Awards leaflet and website for more information.

Other information

EDC is particularly interested in hearing from individuals keen to develop new regional events particularly in Scotland and London.
