

Medical Educators Involved in Student Support (MEDISS)

Mission

The Medical Educators Involved in Student Support (MEDISS) group seeks to support medical educators and to create a forum for discussion and to promote dissemination of relevant good practice and innovation.

Aim

To develop an international community of practice to ensure all our medical students are effectively supported during their training.

Vision

- 🔥 To determine areas of best practice of effective medical student support
- 🔥 To develop, share and disseminate new initiatives and information
- 🔥 To encourage publication of support initiatives e.g. by publishing articles in Medical Education/Clinical Teacher
- 🔥 To establish a national network of Medical Educators involved in student support
- 🔥 To collect and articulate group views to appropriate consultations processes

For more information, email mediss@asme.org.uk or visit our website for a list of all membership benefits and details of how to join online.
